DEPARTMENT OF ENVIRONMENT AND CONSERVATION

10:12 a.m.

Commissioner Milton Hamilton requested action on the following matters.

SHILOH NATIONAL MILITARY PARK, HARDIN COUNTY, TENNESSEE

- 1) Commissioner Hamilton presented a request for approval of a project and acknowledgment of the source of funding to construct a Tennessee **Monument** at Shiloh National Military Park, Hardin County, and approval of a contract with G.L. Sanders, a Texas sculptor, to design, fabricate and erect the monument, subject to approval by the National Park Service and the State Architect. He explained that the Department granted to the United Daughters of the Confederacy a sum of \$125,000 conditioned upon erecting a Tennessee monument at Shiloh National Park (TN and MS are the only two states that had troops participating in the Battle at Shiloh that have no markers in the Park). He said that the Daughters have agreed to grant back to the State \$125,000 that will be matched by federal funding for a total of \$250,000 and that this amount will cover the cost of a new monument. He added that the State will be responsible for the design, fabrication and installation of the monument and the Daughters have agreed to provide for any necessary maintenance in the future.

Representative Steve McDaniels was recognized and expressed his appreciation to the Commission for their help. The Commission approved the request as presented.

Estimated Project Cost: \$250,000.00
SBC Project No. 126/124-01-02

WARRIORS' PATH STATE PARK, KINGSPORT, TENNESSEE

- 1) Approved a request to accept as a gift **Playground Equipment** at Warriors' Path State Park, with design and construction to be provided by the Park's Friends Group, at no cost to the State, with design approval by the State Architect's Office.

SPECIAL ITEM

- 1) Approved a request to add the following item to the *By-Laws, Policy and Procedures of the State Building Commission*:

8.03. BOUNDARY DISPUTE RESOLUTION

A. BOUNDARY DISPUTE CLAIM

1. Upon discovery of a boundary dispute claim by a Department or Agency of the State of Tennessee, the following procedures are to be followed:
 - a) If a boundary problem is discovered, the State agency having jurisdiction over the disputed property will have a staff real estate professional investigate the problem.
 - b) The Agency's real estate professional will examine all records, deeds, plats and monumentations to determine the extent of the problem.
 - c) Once the problem has been defined, the Agency will contact and work in conjunction with the Department of Finance and Administration's Office of Real Estate Management (REM) to resolve the dispute.
 - d) The Office of Real Estate Management will, with any professional consultant deemed necessary, examine the chain of property title and make a determination of what should be the proper property description. The State agency having jurisdiction over the property and REM will devise a potential solution to the problem. Approval to proceed will be required by both agencies before contacting the affected property owner(s).
 - e) Upon receiving approval, REM will contact all affected property owners and negotiate a boundary line. If there is a significant loss or gain of State property (more than five acres), it will require State Building Commission approval prior to any settlement being reached with affected property owner(s).

- f) If a property line can be negotiated and a loss or gain of State lands is less than five acres, REM will approve the settlement of the boundary and report the settlement to the State Building Commission at the next scheduled monthly meeting.
 - g) The Attorney General's Office must approve all deeds of correction or boundary line agreements. All boundary line agreements and new boundary plat retracements will be recorded in the county where the property is located. (Note: Deeds of Correction require all original signers to re-sign and should only be used on recent acquisitions.)
 - h) The State agency having jurisdiction over disputed property will pay all surveying, deed preparation and recording fees associated with boundary dispute.
- 2. Upon discovery of a boundary problem by an outside party, the following procedures are to be followed:
 - a) Once a claim has been made by an adjoining property owner against State land, the State department having jurisdiction over the real estate will have a real estate professional from the department contact the property owner to determine the nature and extent of the claim.
 - b) The Agency representative will document the claim in writing. The property owner must provide legal or credible testimony to support his or her claim. The burden of proof falls on the claiming property owner to provide evidence that the state's boundary is incorrect.
 - c) The Agency's representative will review the landowner's survey, tax map, deed and deed calls, written and oral testimony provided by reputable sources or other qualified sources of evidence.
 - d) The Agency's representative will review the State's boundary by examination of State's deed and deed calls and surrounding properties. He will also review recording information to determine the most recent survey recorded.
 - e) If the Agency determines in its discretion that the claim has possible merit, then the Agency will contact REM who will review all the documentation presented and make any independent investigation deemed necessary.
 - f) REM will conduct an investigation of all the records and testimonies associated with the disputed tract and make a boundary line determination.
 - g) The Agency and REM will attempt to negotiate a boundary agreement with the property owner.
 - h) If it is determined that the State will lose or gain a considerable amount of acreage (more than 5 acres) it must have prior approval by the Agency having jurisdiction

over the property, Real Estate Management and the State Building Commission. Any agreements that involve five acres or less can be approved by the Agency and REM and will be reported to the State Building Commission at the next scheduled meeting.

- i) Once a boundary line agreement has been reached and approved, REM will have prepared a Deed of Correction or a boundary line agreement that will be recorded in the county where the property is located. In settling land disputes, sharing of the surveying, deed preparation and recording fees is encouraged by the requesting agency and the affected property owner. The Agency and the property owner may negotiate the fees before any work is begun.

Commissioner Neel reported to the Commission a request by Governor-elect Bredesen's transition team to remain in leased office space in lieu of relocating to State office space during the transition. He stated that the General Assembly had appropriated \$250,000 for the purpose of providing a seamless transition into the next administration. He stated that the transition team had requested an exception to this and wished to continue using their existing office space and have the State reimburse them for this expense. Commissioner Neel explained that this would save both parties time and money by avoiding the relocation process, which would be further complicated by having to set up an entire new computer network. Based on those reasons, Commissioner Neel said he had approved the request. The Commission accepted the report.
